

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## SEB Strategy Balanced – a sub-fund of SEB Strategy Fund

**Class C (EUR) (LU0660786715)**

Management Company: SEB Asset Management S.A., part of the SEB Group.

### Objectives and Investment Policy

SEB Strategy Balanced aims to create capital growth in the long term. This fund of funds is actively managed with a global focus. Through an active asset allocation given the fund's risk level, the fund's manager seeks to maximize the total return with exposure to a variety of different asset classes such as fixed income, hedge funds, equities, commodities and currencies as well as instruments related to real estate and private equity.

The main category of financial instruments are funds investing in bonds, equities and hedge funds but depending on market conditions, parts of the assets can be invested in funds with exposure to any of the other asset classes mentioned.

Derivatives are used to achieve the investment objectives and facilitate the management of the fund. Derivatives are also used to minimize any unwanted impact that changes in currency exchange rates might have on the fund's performance.

Generally, investors can buy or sell units of the fund on any bank business day in Luxembourg except for December 24. The fund is not distributing.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 3 year(s).

### Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk and reward indicator illustrates the relationship between risk and return for the fund. The higher the fund is positioned on this scale, the greater the possible reward, but also the greater risk of losing money. Category 1 does not mean that the investment is risk free.

The risk category has been calculated using historical performance data which may not be a reliable indicator of the fund's future risk and reward profile.

This fund is in category 4. This means that the risk for value changes in the fund is medium. This category may change over time.

The risk in the fund is limited by the maximum risk level applicable for the fund. The risk is managed by allocation

between the different asset classes in the fund's investment universe.

The following risks are not fully reflected in the above classification but still influence the fund's value:

**Credit risk** - the fund invests directly or indirectly in bonds or other fixed income related instruments. If an issuer of a bond fails to pay the interest and principal amount on time, the bond could lose up to its entire value.

**Counterparty risk** - if a counterparty does not fulfill its obligations to the fund (e.g. not paying an agreed amount or not delivering securities as agreed).

**Liquidity risk** - some of the assets of the fund may become difficult to sell at a certain time and for a reasonable price.

**Operational risk** - the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

**Currency risk** - the fund invests in securities that are issued in currencies other than the base currency of the fund. As a result the fund is subject to currency risk, which arises from changes in the exchange rates.

## Charges

### One-off charges taken before or after you invest

<b>Entry charge</b>	1.00%
<b>Exit charge</b>	0.00%

This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).

### Charges taken from the fund over a year

<b>Ongoing charges</b>	2.31%
------------------------	-------

### Charges taken from the fund under certain specific conditions

<b>Performance fee</b>	N/A
------------------------	-----

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you might pay less - more information can be obtained from your financial adviser or distributor. In case of suspicion of market timing, up to 2.00% may be charged at the discretion of the Management Company. Switch transactions are free of charge.

The ongoing charges figure is an estimate based on the expected total of charges. This figure may vary from year to year. The fund's annual report for each financial year will include detail on the exact charges made. Performance fees and portfolio transaction costs are not included in the ongoing charges figure, except for portfolio transaction costs for entry/exit charges paid by the fund when buying or selling units in another fund.

More information on charges can be found in the section regarding costs in the fund's prospectus, available at [www.sebgroup.lu](http://www.sebgroup.lu).

## Past Performance

The fund was launched in 2008. The unit class was launched in 2012. For the calculation of past performance all charges and fees are included, except any entry and exit charges you may have paid when buying or selling units of the fund. The past performance is calculated in EUR.

Because the unit class has less than one complete calendar year of performance, there is not enough data to present a useful picture of the unit class' past performance.

The past performance of the fund is no guarantee for future performance.

## Practical Information

The fund's depositary is Skandinaviska Enskilda Banken S.A. You can obtain the prospectus, latest annual and semi-annual reports in the language of this document as well as information on how to subscribe units, on any minimum investment amount and on the latest prices free of charge from [www.sebgroup.lu](http://www.sebgroup.lu).

The fund is subject to the specific tax legislation of Luxembourg and this may have an impact on your personal tax situation. SEB Asset Management S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus of the fund.

This key investor information document describes one unit class of a sub-fund of SEB Strategy Fund, while the prospectus, latest annual and semi-annual report are prepared for the entire SEB Strategy Fund.

For the other unit classes of SEB Strategy Balanced you can obtain the prospectus, latest annual and semi-annual reports in the language of this document as well as information on how to subscribe units and on the latest prices free of charge from [www.sebgroup.lu](http://www.sebgroup.lu).

You can switch units of the fund/class into units of another sub-fund/class of SEB Strategy Fund. More detailed information can

be found in the section regarding conversion of units in the fund's prospectus, available at [www.sebgroup.lu](http://www.sebgroup.lu).

Assets and liabilities of each sub-fund of the SEB Strategy Fund are segregated by law, therefore, only the profit or loss of the SEB Strategy Balanced has an impact on your investment.
